To the Electors of the Electoral District of Yale-Lytton.

GENTLEMEN:—In reply to your request, I have much pleasure in coming forward as a Candidate to represent you in the next new Legislative Assembly, and to make short work of it, my political views are:

Canadian Tariff, Repeal of Civil List Act, Repeal or Radical Amendment of Registration Act, Liberal School System on a non-sectarian principle; the construction of Roads, Bridges and Trails, in the different districts both mineral and agricultural. And to faithfully attend to the best interests of my constituents and promote the general welfare.

I am gentlemen, yours faithfully
ROBT. SMITH,
of Lytton.
Lytton, B. C., June 22, 1871. je29 daw

To the Electors of Yale-Lytton District.

GENTLEMEN:—I have the honor to acknowledge the receipt of your requisition, and in accepting the honor you wish to confer on me, I will endeavor, to the best of my ability, to carry out your wishes and opinions.

I am not in favor of pensioning the officials, and will advocate the repeal of the Permanent Civil List Act. I will also vote for the repeal of the Qualification and Registration of Voters' Acts, as they are, in my opinion, unjust and unsuited to the people of this colony. I will resist any attempt of monopoly. I am in favor of an enlarged system of education.

In conclusion, I assure you that it will be my duty to advocate economy in every department of the Government, and to suppor that policy best calculated to benefit the colony, that I will act in unison with the liberal and progressive party, whose principle it is to extend the power of the people and to remove those injurious laws, which are so degrading to the community.

I have the honor to be, gentlemen,
Yours very respectfully,
jy10 W. H. SANDFORD.

Ministerial Utterances on the Fishery Question.

The first of the Ministers who broke silence and expressed his views on the Fishery question was the Hon. Mr. Langevin, Minister of Public Works. He, however, did not inform his audience what course the Ministry intended to pursue,—that is whether they would or would not submit the Fishery sections of the Treaty to Parliament as a Government measure. Quite recently, the Hon. Mr. Campbell, Postmaster-General, and the Hon. Peter Mitchell, Minister of Marine and Fisheries, have touched on the subject, at a dinner given to them by inhabitants of Chatham, New Brunswick. From what we can gather from the views expressed by these gentlemen, the Cabinet would have no objection to adopting the Fishery sections of the Treaty, provided Parliament were willing to do so. Consequently, it is very evident that the course that the Ministry will pursue is not yet fixed,—and depends entirely on the chapter of accidents. The Hon. Mr. Campbell, however, in suggesting that we might sacrifice a little to please England, apparently wished to create a feeling favorable to accepting the Fishery provisions of the Treaty. Here is what he said:

We are all aware that Sir John A. Macdonald went to Washington as Imperial Commissioner, and that therefore his acts could not consistently be associated with the Cabinet of Canada. by the treaty the British Government had endeavored to retain amicable relations with the United States. A statement which had industriously been circulated that the Fisheries were to be given away, was really not correct. By the treaty it is not proposed to give the Americans our Fisheries, only a joint participation in them within the three miles' limit. He had remarked, with a good deal of satisfaction, that the question of the fisheries had excited a very keen interest throughout the Dominion, and the people of Ontario were just as anxious about the matter as were the people of the Maritime Provinces. Personally, he would like to have amicable relations with the United States, *and if it were really necessary that some sacrifice should be made, we ought to be willing to concede a little.* If the people of the mother country were willing to make a sacrifice, *we, as loyal subjects of the Queen, should make some sacrifice also.* But the matter was yet in our own hands. The question had not yet been placed beyond the control of the Canadian Parliament. If, after a few months of calm and careful consideration, the country, through the Parliament, decided to reject that portion of the treaty relating to Fisheries, there the matter would doubtless end. But whatever might be the result, he felt convinced that the people of Ontario would work honestly with the people of the Maritime Provinces.

The Hon. Peter Mitchell followed the Postmaster General,—endorsing his views on the question in the following words:

He endorsed the sentiments of his hon. colleague the Postmaster General in reference to the treaty, about which so much had been said by the press generally; and he believed that portion of the press favorable to the Government *had been more severe in their condemnation than that which was hostile.* It had been very widely circulated that the Cabinet of Canada had not done its duty—that it had sacrificed the interests of the people, etc. This was not correct. All that he asked for Sir John and the Cabinet was a fair and impartial consideration. Let there be no hasty conclusions—but let a wholesome discretion be observed until the time when Sir John would be in a position to speak out on this question, and they would then find that no rights, territorial or otherwise, had been sacrificed, but that the interests of the people had been, and would be, guarded and protected with jealous care. When the Treaty was ratified by the Imperial Government, then the people of this Dominion would hear from their Chief that the interests of Canada in her fisheries had not in any way been sacrificed. The Government had taken the same protective measures this year as last. The fleet under his supervision had the same instructions, and would carry them out as efficiently as before, and no interference with our municipal or legal rights would be allowed from any quarter.

The ratification of the Treaty took place on June 17th, yet the promise that Sir John A. Macdonald would explain the position of the Government on the question has not been fulfilled. Public opinion possibly is not yet ripe enough for the Premier to declare his position. If the Cabinet were really against the Fishery articles of the Treaty, it strikes one that delay in making that fact known after the ratification of the Treaty would be avoided.

The Corporation and its Tax List.

EDITOR STANDARD:—I had hoped that we had lately heard enough of Real Estate tax arrears, sufficiently at least to make the very name offensive and nauseating to the community, especially when we consider that such a state of things is wholly owing to the remissness of officials, in not enforcing the law at the proper time. We are however, now blest with a new list emanating from the office of the clerk of the Municipal Council of this city. As regards my own grievance I have only to say that I once purchased property in the city, and going to the said office to enquire about unpaid taxes, was told that there were no arrears due, when behold I see in the list the very property down for more than one year's taxes. Now, Mr. Editor, this is too bad, and I am tempted to enquire whether the position of clerk of said Council be a permanent one, for since city property has justly to be taxed for city improvements it is necessary to have a person with a clear head for the situation. In consequence of this unhappy state of things, it would be only fair, as in the case of the government taxes, that a receipt for any year should be held as a proof of all former payments. In connection with this subject I would also enquire whether it is for the advantage of the city that we should have a travelling Mayor, or when the next election comes round, however great a pet in certain quarters the present holder of that office may be, whether it would not be well to choose a gentleman whose business keeps him in the city. DR. CHING FUN—A CARD—EDITOR STANDARD:—Through the medium of your paper I want to state the very great good that has been done me by Dr. Ching Fun of this city, next door Kwong Lee & Co. For 24 years I suffered with neuralgia on the brain, which baffled the skull of three first-class American physicians. Latterly bronchitis attacked my right lung, and my eyes became awfully inflamed. Despairing of ever being cured I placed myself as a last resort in the hands of Dr. Ching Fun, and after five months treatment I am a well man and feel that I cannot sound the eminent Chinese gentleman's praises too loudly, o that all my countrymen similarly affected may visit and find relief, Respectfully,

Funeral of Bishop Demers.

Shortly before nine o'clock yesterday morning, the hour appointed for the service to commence, St. Andrew's Roman Catholic Cathedral was crowded by a large and respectable congregation, composed of members of every religious denomination in the city, amongst whom we noticed the Rev. P. Jenns, Rev. F. B. Gribbell, Sir James Douglas, Messrs. A. F. Pemberton, J. D Pemberton, Dr. Tolmie, Leneveu, Reuff, etc. The service commenced by the celebration of the Pontifical High Mass, performed by Bishop D'Herbomez, assisted by Fathers Mandart, Brabant, Jonckau, Kirley and Rondaulx, the whole of which was beautifully intoned, the choral portions being most effectually rendered by the choir, after which the clergy retired and disrobed. On their return an impressive funeral sermon was delivered by Father Kirley, from the text: "Blessed are the dead that die in the Lord, for verily they shall see Christ; and their works do follow them." The Rev. Father in the course of his remarks alluded most touchingly to the austerity of life and great hardships endured by deceased during the term of his episcopacy, and paid a high eulogium to the very efficient manner in which he had discharged the important duties which had devolved upon him as a Diocesan. He particularly referred to his efforts in the cause of education, and pointed out what he had done in that behalf against almost insurmountable obstacles, instancing in a most forcible manner the recent communistic disturbances in France as a contrast to the beneficial effects of sound religious education as administered under the direction of the Church. We regret that our space precludes giving so lengthy a *resume* of this instructive discourse as we could desire, which would commend itself to all those who were fortunate enough to be present. The coffin was then lowered into the vault (which had been previously prepared in the chancel of the cathedral), the remains sprinkled with holy water, and the services concluded with prayer.

HUDSON'S BAY COMPANY.—The net profits for the year ended the 31st of May amounted to £27,357, as against £53,321 for the year ending the 31st of May, 1870. The balance of undivided profits was £61,417, as compared with £64,061 last year. The interim dividend paid in December, 1870, was £30,000. Of the total receipts £35,494, from which the profit of £27 357 was made in the year, £11,425 was due to the balance of gain on the premises in Fenchurch street; £5,686 represented the income derived from investments, and only £18,383 arose from the profits of the fur trade. The loss of property during the disturbances at Red River had affected the accounts to the amount of about £30,000. As regarded the fur trade, the directors believe that great economy may be effected by steamers upon some of the lakes and rivers, and by a reduction in the staff of officers. As regarded the other business, they have a large landed interest in a territory which is now beginning to attract emigrants. The directors consider it desirable to employ some of the officers in the management of the land. They propose to purchase the respective interests of that body which has been calculated at £75,255, and to add to it £37,800, or two-fifths of the Oregon money, after deducting expenses, spreading the payments over three years. The great object of reorganising the establishments on a thoroughly satisfactory footing could not be attended at a lower cost. The directors recommend that a further dividend of 6d. per share be paid, thus reducing the balance to £31,417.

TO TEST TEA.—In testing tea it does not require an analytical chemist to detect many of the cheats which are practiced upon consumers. Various simple methods have been suggested by which housekeepers may discover the impurity of articles of family use. An exchange upon this says:—In nothing is the cheating more universal and persistent than in tea and coffee. It is almost impossible to buy either of these articles with a certainty of getting them pure. "Faced" tea, or that which has an artificial colour, may be detected by very simple means. One of the most dangerous facings is Prussian blue. Put a little of the green tea into a bottle with cold water, shake it violently, and quickly pour the water into a glass. Let it settle, and the powder will sink. The water may then be poured off, and the powder examined. Pour upon it a few drops of the solution of washing soda, and if it contains Prussian blue its colour will change to a dirty brown.

THE "YANKS" AND "CANUCKS"—The Yankee fishermen of Gloucester are highly agitated over what they term an infringement on their rights. Some observing "Canucks," who a short time ago learned how Yankees kept fresh fish (by packing in ice,) thought it a pretty good idea, accordingly a vessel loaded with halibut a few days ago sailed into port and sold her cargo at 1½ cents a pound, while the Bluebellies have been in the habit of exacting 3 and 4 cents for the same amount of fish. So elated have been the Canadians at their success, that they are now on their way with three or four more cargoes. The Gloucester fishermen are loud in their denunciations of the treaty, and have appealed to Gen. Butler to assist them in their dilemma.

THE LIEUT.-GOVERNOR OF BRITISH COLUMBIA.—The San Francisco *Alta* writes: Lieut.-Governor Trutch, now stopping at the Grand Hotel, will remain in this city to await the arrival of Ex-Governor Musgrave from Victoria, who will come down on H. B. M. steamer Sparrowhawk. The latter is expected to arrive about the 28th inst., and Lieut.-Governor Trutch will leave this port about the 4th prox. on the same vessel, for British Columbia, there to enter upon his duties under the new Confederative Act. Mr. Trutch was formerly Surveyor-General of the colony, where he is very highly esteemed and respected. Governor Musgrave will return to England, there, doubtless, to receive a more important appointment.

ESQUIMALT DISTRICT.—Mr. Cogan of Craigflower, and Mr. Peat of Colwood, we are informed, will positively stand as candidates to represent the Esquimalt district in the local Legislature. Mr. Robert Wallace, merchant, is also in the field as a candidate.

A NEW ALASKA EXPEDITION.—W. H. Dall, formerly connected with the W. U. Telegraph Expedition, who made in conjunction with Fred. Whymper a journey of 1,200 miles into the heart of Alaska, and who subsequently spent a year in that country at his own expense, is now in this city, and will shortly start on a new expedition. Mr. Dall's services in the cause of science, culminating in the production of an excellent book, and in the enrichment of the museums of the Smithsonian Institute at Washington, with his scientific labors since, entitle him to a high place in public regard. The new expedition is under his charge. Professor W. Harrington, of Michigan University, is his associate as astronomer. The expedition is organized under the auspices of the United States Coast Survey, for the purpose of correcting the existing coast lines on the charts; more especially those of the Aleutian Islands. The Coast Survey schooner Humboldt, now at Astoria, will be employed in the service. In addition to large collection of minerals, and every variety of specimens which are sure to be gathered, the deep sea soundings to be made will add much to our knowledge of the lower depths of mother ocean. Professor Agassiz's new expedition will start from Boston in September next, and proceed to the Pacific via the Straits of Magellan. Deep sea sounding is to be one of the main features of this expedition, and the results of the two combined will be looked forward to with deep interest by men of science. Mr. Dall will examine the coasts as far north as Cape Romanzoff. He takes with him a quantity of seeds, to test in the soil of our northern territory.—*S. F. paper.*

SOMETHING OF H. M. S. CHARYBDIS.—The *Pall Mall Gazette* of June 30th says: "The Admiralty has received a despatch from Captain Lyons, of H.M.S. Charybdis, giving particulars of the mas-acre of Mr. Barnes, the captain, and three of the crew of the British ship Propontis at Port Gallant, on the Patagonian coast, on the 4th of March last. The party went on shore for the purpose of cutting wood, and not having returned two days afterwards, a second boat's crew was sent ashore, which after a short search discovered the dead body of the captain in the bush, with both legs cut off. From the statement of an Indian afterwards captured by the crew of the Charybdis it appears that the whole of the party were massacred by the Indians, and that a portion of the body of the captain was eaten, and the bodies of the others thrown into the sea.

"EVERY DOG HAS HIS DAY."—A gentleman who lately accompanied Jeff. Davis to his old plantation near Memphis, which is now owned and managed by Ben Montgomery who was formerly a slave, says that Montgomery gave them breakfast and dinner waiting on the table himself, but not offering to take a seat. Last year Montgomery made 2,500 bales of cotton, and as he has since purchased a large and valuable plantation, and added it to the Davis estate, his crop will probably reach 3,500 bales the present season, in addition to a large quantity of corn.

RAILWAY SURVEYORS.—Messrs. Gillette, Rheaume and Green, and party, were left at Hope to make their way to Kootenay. The others proceeded to Yale, where they arrived on the 26th. As there was no conveyance except for baggage, the surveyors and men left at 6 a. m. on the 27th, to walk to Savana's Ferry—a distance of 135 miles. That is a very good way to break the surveyor's in to exploring; but a slow way to reach the Rocky Mountains this season.

THE CAROLENA CASE.—The examination on the charge against the schooner Carolena, for being engaged in carrying liquor to be supplied to the Indians of the colony, was held yesterday before the Stipendiary Magistrate. The case was dismissed for lack of sufficient evidence. Already have two fines of $500 each been imposed on the master, and another for being concerned in supplying the natives with liquor.

THE MAIL ARRANGEMENT.—We understand the steamer Prince Alfred will receive $5000 per month to carry the mails and passengers, and to make two trips per month, between this port and San Francisco—under the new arrangements; and that with the exception of this trip, she will not proceed to Nanaimo as heretofore.

THE LIEUT. GOVERNOR.—It is thought the Lieutenant Governor will leave San Francisco to-day by the Sparrowhawk, and that on his arrival here he will proceed to and reside at his own residence, instead of at Government House. Eight thousand dollars a year, which is to be His Honor's salary, is considered insufficient to do the honors which would be expected at Cary Castle.

INQUEST.—An inquest sat yesterday at the Police Court to inquire into the cause of the death of an Indian woman, which lately took place at her house near the iron church. She stated before her death that she had been struck by a man while out gathering berries. A witness named C. Smith having been examined, the inquest was adjourned for a week for further testimony.

LOAFING.—In Connecticut "corner loafing," with the use of abusive, indecent, or insulting language, whether addressed to any person passing upon any highway, to any other person, or to no person in particular, has been made a statutory offence, punishable by a fine not exceeding seven dollars.

A ROYAL VISIT.—The Prince of Wales was to have visited Dublin on yesterday, with Prince Arthur, the Duke of Cambridge, Princess Louise and Marquis of Lorne. A series of brilliant fetes and balls, closing with a grand review, was projected during their stay in Ireland.

FROM SAN FRANCISCO.—The steamer Prince Alfred, Capt Scholl, arrived yesterday morning at 4:30 o'clock, five and a half days from San Francisco, with 66 passengers and a large freight. She proceeded to Nanaimo for a cargo of coal last evening, and will return and sail for San Francisco on Friday next.

FROM THE SOUND.—The steamer North Pacific, Capt. Starr, arrived last evening from Puget Sound, with 96 passengers, 13 head of cattle, and one horse; no mail came by her. At 12 o'clock to-day she will return, taking the circus company over.

PUGET SOUND.—It is rumored the sudden departure of a detective from Port Townsend has left a deficiency of $20,000 in the Receiver's office. It is understood 25 miles of the railway from Kalama towards Pamphrey's will be open by October.

FOR BURRARD INLET.—The Isabel, Capt. Clancy, left with the ship Kenilworth in tow for the Hastings mill, yesterday morning. Captains Raymur, Thain, and McKinnon and several other persons went up in her.

AMONGST the passengers who arrived by the Prince Alfred yesterday, known to Victorians, were Assistant Colonial Secretary Good, Major Downie, E. J. Thain, Baron Rothschild and A. J. Brunn.

H. M. S. Boxer was in the Straits practising firing yesterday.

THE CIRCUS.—Another large house at the circus last night. On the Sound, one paying house was all that could be had in any of the towns. The troupe will leave this morning by the North Pacific, to finish W. T.

THE steamer Prince Alfred encountered heavy seas and head winds shortly after leaving San Francisco, so that she had to put into Trinidad on her way up. Her funnel showed evident signs of rough weather.

THE Rev. Morley Punshon, in giving his opinion of what he saw while in British Columbia, to an English paper, concludes by saying that "it is a fine mission field for all the churches."

THE house of Vincent Colyer was struck by lightning, in Connecticut, on the 15th of last month. Mrs. Colyer was slightly stunned. Mr. Colyer was here a year and a half since on Indian matters for the U. S. government.

THE San Juan-Lopez cable will take a few days before righted; in the meantime, messages will be ferried across, as on former similar occasions.

ECCLESIASTICAL.—During the vacancy of the Catholic See of Vancouver Island, the Rev. Father Seghers will be administrator of the Diocese.

IT appears the territory proposed to be ceded by Holland to England was in Guinea on the West coast of Africa—not the island of New Guinea.

FIRST OF AUGUST.—George reopens his game store, Johnson street, to-day, for the season. He has a fine stock of venison.

NAVAL.—Admiral Winslow, U.S.N., entertained Admiral Farquhar and staff on board the flagship Saranac, yesterday.

FOR SKEENA RIVER.—The H. B. Co.'s steamer Otter, will leave on Thursday for Skeena river and Fort Simpson.

CLEARED.—The bark Maud Helen cleared from San Francisco July 24th, for the Hastings Mill, Burrard Inlet.

THE Chief of Police of Dublin died a few days since of wounds received from a supposed Fenian. The murderer is under arrest.

THE British ship Woosung was the first vessel to load wheat at San Francisco for England in three months.

COAL EXPORTS—from Nanaimo for the six months amount to 16,257 tons, of which 6,740 tons were sent to San Francisco.

GEO. FRANCIS TRAIN was in Cork on the 20th inst., and explained his plans for an invasion of Germany!

It is proposed to construct immediately a fleet of first class steamships of 3,000 tons and upwards, adapted to the trade, the vessels to run between Montreal and Liverpool in summer, using Portland, Halifax, or other Atlantic port in the winter months. The capital of the company is represented at £10,000,000 sterling allotted to private subscribers, a portion of which is reserved for Canada.

SPECIAL TO THE DAILY STANDARD.

LAST NIGHT'S DESPATCHES.

EUROPE.

PARIS, July 28—The rumor is that Bismarck has consented to the evacuation of Paris on the 1st August is pronounced without foundation. The Germans will not withdraw from the vicinity of Paris until fifteen hundred millions francs indemnity are paid, and it will be impossible for French Government to pay the amount as early as the first of August.

The Assembly will sit again next Monday. Deputies of the left and extreme left are yet unable to form an alliance. Three hundred Deputies pledged to the prolongation of Thiers power as Chief Executive.

A special dispatch says, the Government has given the fullest assent to the scheme for the emigration of Communist prisoners to Arizona. It divides the prisoners into three classes. First, violent prisoners and those guilty of crime, who are sentenced to hard labor for life. Second, dangerous persons who are to be sent to French colonies, and third, a general amnesty is granted on condition of their voluntary emigration. Last, they are permitted to go to Arizona, the Government giving them transportation agricultury and mining tools, tents, arms and subsistence for six months.

PARIS, July 29—The expected prolongation of Thiers' power as Chief Executive will be voted by the Assembly next week.

The majority of the Assembly are reported to be in favor of the imposition of a tax on incomes.

LONDON, July 29—A letter from Court expresses the belief that Count Chambord is to be the future King of France.

EASTERN STATES.

The Secretary of the Interior to-day nominated Robert Lee of Janesville, Ohio; Geo Outlan of San Francisco, and Wilson of Minnesota, Government Commissioners to examine the section of 20 miles lately completed on the Southern Pacific Railroad of California.

WASHINGTON, July 29—Information has been received that the British Government has appointed Mr. Gurney Recorder of London Commiss on on the part of Great Britain, under the Treaty of Washington. The President has appointed as United States Commissioner Judge Frazer of Indiana. The third Commissioner is to be appointed by the United States and Her Majesty conjointly; but in case the third Commissioner shall not be so named within a period of three months from exchange of ratification of Treaty, then he will be nominated by the Spanish Minister at Washington. It is thought here that no contingency will arise, as Minister Roberts, under the Treaty, will designate the third Commissioner, in the event of failure to do so by the United States and Great Britain. Recent telegrams from Madria stating that he has been authorized to exercise the functions of third Commissioner are erroneous.

It now transpires that the California trip which the newspapers have so long advertised, that the President is about to make, will not be made at all; whatever intention in regard thereto he may have had is now abandoned.

NEW YORK, July 29—The *Times* Washington special says, speculations as to the removal of Commissioner Pleasonton will be set at rest. His removal has been definitely declaimed on by the President, and as soon as certain other matters are concluded, a change will be made.

WASHINGTON, July 29—The Sub. Ku-Klux Committee, consisting of Senator Scholl and Representatives Stevenson and Van Trump, reached here to-day, after a sojourn of four weeks in South Carolina, investigating the Ku Klux. They visited nearly all the places where Ku-Klux are said to abound, and gathered a mass in relation to the operations of the Ku-Klux. The Committee was beset by scores of victims of whipping and other outrages.

PERSIA.

NEW YORK, July 29—Cable dispatches add but little to information of the dreadful famine in Persia. The drought last year in the Central and Southern Provinces, and the consequent failure of the crops, caused great destitution and misery all winter, and at the same time the population of the cities was increased numerously, which brought on famine, causing many to leave their homes, consequently making a decline in taxes on the Government. The new Government promised to raise not only the usual sum but still more, and this oppression drove the rest of the country people from their homes and filled the cities, which pay no taxes. The failure of the crops in Loristan was rendered more disastrous, because other Provinces which mostly raise opium and silk depended on it for their grain. Yizen raises opium; the people could buy no grain then ate grass and roots. In Kalorasson, people sold their children to Turcomans to save their lives, and in other Provinces people ate their children, having devoured all their domestic animals and even vermin. Men were caught digging ud corpses to feed their families, and in consequence committed fearful ravages.

DR. CHING FUN—A CARD—EDITOR STANDARD:—Through the medium of your paper I want to state the very great good that has been done me by Dr. Ching Fun of this city, nxet door Kwong Lee & Co. For 24 years I suffered with neuralgia on the brain, which baffled the skull of three first-class American physicians. Latterly bronchitis attacked my right lung, and my eyes became awfully inflamed. Despairing of ever being cured I placed myself as a last resort in the hands of Dr. Ching Fun, and after five months treatment I am a well man and feel that I cannot sound the eulogium Chinese gentleman's praises too loudly, so that all my countrymen similarly affected may visit and find relief. Respectfully,
JOHN HENTON, of Kentucky, U. S.
